

Ege Akman

Ege Akman's CV

Antalya

egeakmanegeakman@hotmail.com

+905427415148

Hello, I'm Ege Akman, and 16 years old. I got into programming when I was 14. I know Python, Java, HTML, CSS, Bash, and PowerShell. I actively use some Adobe CC applications such as Photoshop, Premiere Pro, Illustrator. My favorite text editor is Visual Studio Code. I am familiar with Git and GitHub. I also did create a Discord bot with Python that has features in different categories such as music, moderation, entertainment, and now we are merging our bots with a friend. Also, I'm learning C# and C++. And most importantly I love learning new things and am a fast learner.

Here are my social media accounts:

GitHub: <https://github.com/egeakman>

LinkedIn: <https://www.linkedin.com/in/egeakman>

Instagram: <https://www.instagram.com/ege.akmn>

Twitter: <https://twitter.com/egeakmn>

I hope that you hire me as an employee.

Regards...

Work Experience

Python Developer

Antalya ISAS - Antalya

April 2021 to Present

I voluntarily work at Antalya ISAS as a Python Developer / Project Manager. We are making an open-source PyQt application for collecting and recording data, especially visual data, from underwater ROVs. Here is a link to the app's repository: <https://repo.antalyaisas.com/tcgrida-app>

Participating in FIRST Robotics Competition

First Robotics Competition - Istanbul

September 2020 to Present

We call FIRST Robotics Competition the ultimate Sport for the Mind. High-school student participants call it "the hardest fun you'll ever have."

Under strict rules, limited time and resources, teams of students are challenged to raise funds, design a team "brand," hone teamwork skills, and build and program industrial-size robots to play a difficult field game against like-minded competitors. It's as close to real-world engineering as a student can get. Volunteer professional mentors lend their time and talents to guide each team. Each season ends with an exciting FIRST Championship.

Made a Discord Bot with Python

Freelance - Antalya

June 2020 to October 2020

I created a Discord bot with Python that has features in different categories such as music, moderation, entertainment.

Education

High school diploma in Computer Programming

Bahcesehir High School for Science and Technology - Antalya

August 2020 to Present
